End of year events.

State is canceled. Other performances will not be bandorama or indoor big events...in holding pattern to see what May looks like. We have all been trying to come up with contingency plans, working hard to find backup dates locations etc. Planning on May going on as planned if we get word from Governor to continue will do backup

Percussion royalty royallair going on until notified.

Getting ready for upcoming marching band season. June 1-3rd. Dates have been cleared for those days. Even if distance learning in May we will still start June 1st. Great time to try on clothes makes sure knee length khaki shorts and pants fit. Shoe orders are out, cheapest price if order before May...will go in waves.

Royalties and Aires tryout May unless need to move. If you clicked you needed a shirt or polo as a reminder, it was not an order, was just an idea how many to have. It's cash and carry in June. On band camp calendar.

Uniform committee... if May distance learning, we will talk and choir uniforms come in and empty out lockers, etc. collect tux, instruments, etc. Mr. Osborne will give official day students will be able to clear stuff out of the building. Still in the planning process.

Summer calendars are normal. If we are not returning May 4th, we will hit the ground running June 1st with new marching band season.

Band front, auditions not in May, what happens with June 1st. Working on gym space and day and time for those. School is under construction, so losing gym 2. If needs to be in June, will post on website and google classroom asap.

If in band front and also doing concert band, do you register now or wait until tryouts to sign up? If student going to be year round band member better to register now.
